

BOOK REVIEWS

1200 MCQ on Dermatology, Venereology and Leprosy, Haldar B, Calcutta Skin Institute, Calcutta, 1984; pp 152, Price Rs. 30.00.

This book will be of great use to doctors seeking admission to post-graduate diploma and degree courses and also for those going for interviews and examinations. Its utility would have been increased if the relevant references were given with each question rather than at the end. Since, this book is a multiple choice

question type, it is not of much use for general practitioners as a ready reference book.

Like many other books, this has also got its share of misprints and some factual errors. An example is question no. 763, where all the choices given are wrong. Some of the references given are out-dated. It is hoped that these defects will be corrected in the next edition.
