

FROM OUR BOOK SHELF

WHO EXPERT COMMITTEE ON GONOCOCCAL INFECTIONS: First Report, Geneva, 1963; Published by WHO; Price : Rs. 5 or \$ 1.00.

This well compiled and lucidly presented report comprises of the collective as well as accepted views of an international group of expert venereologists. The seventy pages text deals with various aspects e g. failure to control gonococcal infection, trends in incidence, natural course of the disease, methods of diagnosis, treatment and prophylaxis. Numerous references have been given to enhance further reading. This concise and handy technical report will no doubt be of immense practical value to the venereologists, general practitioners and to post-graduate medical students. In our opinion, it is a must for every medical library.
