

ASSOCIATION ACTIVITIES
INDIAN ASSOCIATION OF DERMATOLOGISTS
AND VENEREOLOGISTS

(Western India Branch)

1. A clinical meeting was held at Skin Department, K. E. M. Hospital, on Friday the 25th September 1964 at 12.15 P. M.

a) A case of generalized eczema was demonstrated. His blood uric acid was higher than normal. It was observed that patient responded to saliscate therapy. The purpose of demonstration was to explore new avenues e.g. metabolic anomalies etc. as etiological agents in the causation of eczemas.

(b) Dr. S. C. Desai gave an illustrative talk on his recent tour abroad when he attended the first International Conference under the aegis of **International Society of Tropical Dermatology**. He was elected Vice-President. He emphasized the immense value of such knowledge with pleasure tours both as regards scientific exchange of views and personal contacts with our counterparts in other countries.

2. **Seventh All India Conference of Dermatologists and Venereologists.** The above annual conference will be held from 22nd to 26th January 1965 at Bangalore, jointly with Physicians. For further particulars members are requested to contact Dr. Basavraj Urs, Organising Secretary, Joint Annual Conference of Physicians, Department of Medicine, Victoria Hospital, Bangalore. Members are informed that they have to send their delegate fees before 15th November 1964. They are further requested to join in large number and make the conference a success.
