

### FROM OUR BOOK SHELF

RECENT ADVANCES IN VENEREOLOGY by Ambrose King; Published J. & A Churchill Ltd., Lon on 1964; Edition I, Price 60 sh.

The main text of 483 pages has covered almost all the recent advances touching the incidence epidemiology diagnosis & management of venereal diseases. Dr. Rodin has contributed the sections on non-gonococcal urethritis, trichomoniasis, cardiovascular syphilis, Jarish-Herxheimer reaction and the fluorescent treponemal antibody test while the chapter on Reiter's disease and serology of syphilis has been written by Dr. Hancock. This lucidly writtn book makes a very interesting reading and references given at the end of each chapter enhance further

reading. This monograph will be of immense utility to post-graduate medical students as well as to practising venereologists. We unhesitatingly recommend this book to all those who are interested in venereal diseases.

S. J. YAWALKAR.

VENEREAL DISEASES by Ambrose King and Claude Nicol; Published by Cassell, London; Edition, I, 1964, price 50 sh.

In this book the authors have dealt with the epidemiology, pathology, diagnosis and management of all the venereal diseases in a very concise and lucid style. Trichomoniasis, non-specific infections of the urogenital tract and Reiter's disease have also been included in the text. The main text comprises of 285 well-printed pages studded with 164 highly illustrative and well chosen figures. Full consideration has been given to the established data on the venereal diseases while authors have successfully tried to embody briefly the recent advances in venereology. This well-indexed and well-written book will no doubt be very useful to post-graduate as well as undergraduate medical students and to practising venereologists. It will be a worthy addition to medical libraries.
