

NEW PREPARATIONS

Roche Products Limited, Bombay, have now introduced their long-acting, low-dosage sulfonamide 'Madribon' (sulfadimethoxine) in the form of Drops for the Pediatric use. Drops contain 0.2 g. of active substance per ml. and is available in dropper bottles of 10 ml.

The drops may be given undiluted or mixed with fluids or semisolids (milk, stewed fruit, baby-foods, milk puddings, etc.).
