

## Dr. (Mrs) Bindu Nair

Dr. (Mrs.) Bindu Anil Nair, a promising young dermatologist and cosmetologist who was practicing in Sharjah, UAE, from 1998 to 2004, expired on 6<sup>th</sup> September 2005 at a young age of 34 years in Mumbai.

Born on 13<sup>th</sup> July 1971 in Kunnamkulam, Thrissur District, Kerala, she completed her M. B. B. S. from Lokmanya Tilak Municipal Medical College, Mumbai, in 1992; DDV in 1996; and MD in Dermatology from Seth GS Medical College and King Edward Memorial Hospital, Mumbai, in 1997, with University rank.

Being a highly spiritual individual, devoted to her chosen profession, she had made the charitable and humane aspects of the profession her benchmarks. After her marriage, she joined Al Salam Clinic, UAE, for 3 years and spent another 3 years in Al Ameen Medical Centre. She was an asset to both the clinics

in all respects. With her up-to-date knowledge in the specialty, she was very keen to discuss problem cases with me and her other colleagues. To pursue her spiritual path, she resigned her job and joined the Sathya Sai General Hospital, Puttaparthi, Andhra Pradesh, as an honorary dermatologist without any remuneration. Incidentally, this was her last professional endeavor.

Due to her academic and clinical excellence and her sincere concern and love for patients, she is fondly remembered and cherished by all those who had the privilege of interacting with her. May God rest her soul in eternal peace and give strength and courage to her family members to bear the untimely loss.

S. C. Bose  
Dermatologist, Sharjah, UAE

### Author Help: Sending a revised article

- 1) Include the referees' remarks and point to point clarification to those remarks at the beginning in the revised article file itself. In addition, mark the changes as underlined or coloured text in the article. Please include in a single file
  - a. referees' comments
  - b. point to point clarifications on the comments
  - c. revised article with text highlighting the changes done
- 2) Include the original comments of the reviewers/editor with point to point reply at the beginning of the article in the 'Article File'. To ensure that the reviewer can assess the revised paper in timely fashion, please reply to the comments of the referees/editors in the following manner.
  - There is no data on follow-up of these patients.  
**Authors' Reply:** The follow up of patients have been included in the results section [Page 3, para 2]
  - Authors should highlight the relation of complication to duration of diabetes.  
**Authors' Reply:** The complications as seen in our study group has been included in the results section [Page 4, Table]
